

VP-Certification Elect: YU Kwok Mei Janet

Vision Statement:

In nominating for the Vice President of Certification, I hope to shape the PMI certifications as well-recognized and valuable credentials to industry practitioners, with more focus placed on growing certifications, in particular, the PMI Agile Certified Practitioner (PMI-ACP), PMI Certified Associate in Project Management (PMI-CAPM), and PMI Professional in Business Analysis (PMI-PBA); and to grow the number of certificants across multiple industries.

My strategies for realizing the above are as follows:

- Provide assistance in exam preparation and obtaining PDUs
 - Update the public/members of the latest developments in PMI certifications
 - Pass on the knowledge and skills and best practices of project management as documented in PMBOK to the younger generation and exam aspirants
 - Provide support and answer queries that exam takers may have regarding eligibility and exam arrangements
 - Work in collaboration with VP Programs/Education to organize exam prep courses/seminars for the public/members/certificants

- Raise awareness of and promote PMI certifications
 - Organize briefing seminars for PMBOK updates to the public, to corporates and to professional bodies
 - Conduct talks at universities to students of different disciplines about profession of PM and value of CAPM
 - Invite industry practitioners to deliver talks on Agile PM for postgrad students and introduce the value of ACP
 - Review and update the PMI HK Website with regards to materials concerning certification
 - Work in collaboration with VP Membership/Marketing to promote PMI certifications

I am currently teaching project management at CityU. With my current position and roles there, I have the advantage of having the opportunity of directly and constantly interacting with university students, alumni, and industry professionals which can help achieve the aforementioned initiatives.

PMI Leadership Experience:

2015-2019

VP Certification, PMI HK Chapter

- Grew certification numbers. See following chart for the percentage of growth:

- Delivered talks and seminar to the public, corporates and students regarding knowledge on PMBOK and certification
- Updated the public on PMBOK 6th edition
- Disseminated news and updates related to certifications and continuing certification (such as the Talent Triangle)
- Assisted in Programs in the annual Congress
- Helped in reviewing CCRS activities
- Nominated students to PMI's events and to the CAPM training

2013-2015

Subcommittee Member of VP Programs, PMI HK Chapter

Helped in organizing events and programs for the local HK Chapter of PMI, in particular, the PMI HK AP PM Congress 2014
